Your 140 engine is actually 181 cu in or 3.0 liter. These engines were never used in cars but were an industrial/marine engine. They have a pretty good cyl head but it can still benefit from a little port work. They accept hi perf sbc valves and springs although most of them come with a 1.94 intake and a 1.6 exh valve.

...

Hot testing. We fire up the engine and run it for at least 15 minutes under pressure. See if the oil and coolant are doing their job. See if the engine performs to the same high standards as a new MerCruiser engine. And to make it official, we back it the same way. With the same MerCruiser one-year limited factory warranty. The aftermarket fix.
