Help. I have a 100% stock 2000-T currently with 49,699 miles that I purchased beginning of March this year and just last week the check engine light came on while warming up for a drive. Extremely upset since it only gets to be driven once a week. Today, I took it to AutoZone for a free OBDII scan and the unit pulled up code P0141. (O2 sensor heater circuit malfunction; bank 1 sensor 2).
