The NEC can be dense; the 2014 edition
was about 1,000 pages long. However, it
is broken down into chapters, and each
code article's number corresponds with
the chapter it is based in. For example,
the article on code 710, Stand-Alone
Systems, is located in the seventh
chapter of the NEC.

The National Electrical Code, or NFPA 70, is a regionally adoptable standard for the safe installation of electrical wiring and equipment in the United States. It is part of the National Fire Code series published by the National Fire Protection Association, a private trade association. Despite the use of the term "national", it is not a federal law. It is typically adopted by states and municipalities in an effort to standardize their enforcement of safe electrical practices. In some cases, the
