### A Practical Guide To Musical

His "Principal Guide to Musical Composition" is well and clearly written, contains enough examples that are elaborated on and provides one with -as the title suggests- principles instead of scholastic models and strict rules, covering the problems any composer faces, no matter if tonal or atonal.

### A Practical Guide to Musical Composition by Alan Belkin

musical composition at various levels, I was repeatedly struck by the dearth of practical information about how music is constructed. There are good texts available on harmony, counterpoint, and orchestration, but useful principles of musical form, explained from the point of view of the composer, are oddly neglected.
