Accounting is based on the principle of two-sided. In order to carry out business activities, the company needs funds; these funds must be given to the company by someone. The funds owned by the company are called assets. Part of these assets is provided by the owner, total amount of funds contributed by him is called owner's equity or capital. If the owner is the only one who contributed ...

The second reason is that the normal balance for Mary Smith, Capital is a credit balance and to increase its balance, we need to CREDIT the account. Recall that the owner equity account, Mary Smith, Capital is on the right side or credit side of the accounting equation and therefore its balance is normally a credit balance.
