Agroecosystem Sustainability: Developing Practical Strategies covers topics that range from management practices specific to a particular region to more global efforts to develop sets of indicators of sustainability. It links social and ecological indicators of sustainability.

Agroecosystem Sustainability - Stephen R Gliessman - Bok ...

Agroecology (a-grō-ē-'kâ-lə-jē) is an applied science that studies ecological processes applied to agricultural production systems. Bringing ecological principles to bear can suggest new management approaches in agroecosystems. The term is often used imprecisely, as the term can be used as a science, a movement, or a agricultural practice.
