(PDF) MSA Reference Manual 4th Edition | Fernando ...

It says on page 78 of AIAG's Measurement Systems Analysis, 4th Edition that "every effort should be made to improve the measurement system" when it is unacceptable. There does not appear to be any rationale in using the values of 10% and 30% as the criteria. These have not changed over the years.

Acceptance Criteria for Measurement Systems Analysis (MSA ...

Intended to provide a common approach to a heat treat management system for automotive production and service part organizations, the 4th edition now includes additional best practices, along with new and modified requirements and clarifications for supply organizations to consider in making their own self-assessments.

Try using the AIAG SPC data the QI Macros loads on your computer at C:\Program Files\QIMacros\TestData. Using a gage that measures in too much detail. If your part is 74mm +/- 0.05, then you don't need a gage that measures to ten thousandths of an inch (0.0001) you only need one that measures to the hundredth of an inch (0.01).
