Airport traffic patterns are developed to ensure that air traffic is flown into and out of an airport safely. Each airport traffic pattern is established based on the local conditions, including the direction and placement of the pattern, the altitude at which it is to be flown, and the procedures for entering and exiting the pattern.

Chapter 7 Airport Traffic Patterns

Please note: This is an estimate based on Pavco's average student completion time. Please be aware that many flight schools will quote the FAA minimum of 40 hours, which is rarely ever attained by the average student. Although these other schools may appear cheaper, we prefer to give you a realistic quote for your flight training goals. Prices may change without notice based on aircraft ...
