The AISC Load and Resistance Factor Design (LRFD) Specification for Structural Steel Buildings is based on reliability theory. As have all AISC Specifications, this Specifica-tion has been based upon past successful usage, advances in the state of knowledge, and changes in design practice. This Specification has been developed as a consensus docu-

### LOAD AND RESISTANCE FACTOR DESIGN SPECIFICATION

Historic Steel Construction Manuals are only available to AISC members. Notes about the PDFs: The manuals are best viewed using Adobe Reader, which displays a comprehensive table of contents within the application's bookmarks pane. Each file was processed using OCR (optical character recognition) software, so the contents are fully text searchable.

### Historic Steel Construction Manuals - AISC Home

The Manual of Steel Construction LRFD, 3rded. by the American Institute of Steel Construction requires that all steel structures and structural elements be proportioned so that no strength limit state is exceeded when subjected to all required factoredload combinations.
