Alexander Calder Meet The Artist

In 1930 Calder visited the artist Piet Mondrian in his studio in Paris where he saw his simple paintings of rectangles and stripes in red, yellow and black. He thought it would be good if the shapes in Mondrian's paintings moved, so he went back to his studio and began to work on a series of sculptures that would do this.

Who is Alexander Calder? - Who Are They? | Tate Kids

Alexander Calder was an American artist best known for his invention of the mobile and his wire sculptures. "My whole theory about art is the disparity that exists between form, masses, and movement," the artist once said. Born to artist parents on August 22, 1898 in

Alexander Calder | artnet

Summary of Alexander Calder. American artist Alexander Calder redefined sculpture by introducing the element of movement, first through performances of his mechanical Calder's Circus and later with motorized works, and, finally, with hanging works called "mobiles." In addition to his abstract mobiles, Calder also created static sculptures, called "stabiles," as well as paintings, jewelry ...
