ELAN is computer software, a professional tool to manually and semi-automatically annotate and transcribe audio or video recordings. It has a tier-based data model that supports multi-level, multi-participant annotation of time-based media. It is applied in humanities and social sciences research (language documentation, sign language and gesture research) for the purpose of documentation and ...

ELAN software - Wikipedia

Discourse Theory and Practice is much more than a collection of key classic articles and papers in the field of discourse analysis. The aim of the book is to introduce students to the major figures in the field, and to some of their writings which, combined with the interspersed editorial commentaries, should allow students to understand the key epistemological and methodological issues of ...
