Tests and Answer Keys | Macmillan Readers

Today's activity allows students to visualize motion and its correspondence to kinematics graphs while working with someone new. Before we start the activity, I assign partners using the Random Student Generator that already has my students' names loaded. Because this activity does not need to be completed outside of class, I feel comfortable in choosing the pairings for my students.

Moving Man Simulation Activity Answer Key - BetterLesson

Speeders vs. Accelerators Lab: This lab will build upon our knowledge of logger pro as we create the graphs of a speeder and of an accelerator. Note that there is a prelab that also goes with this lab. Rollerblader Problem: To practice graphing some one dimensional motion we will graph how a rollerblader moves. Use this as practice before we start to use one type of graph to tell us more ...
