B4B: How Technology and Big Data Are Reinventing the Customer-Supplier Relationship. With the rise in popularity of cloud-based business models, many technology companies are feeling increasing pressure to transform their businesses to focus less on products and more on services. Fortunately, you don't need to replace your traditional product-based business model entirely, but instead, find ways to add profitable "as-a-service" offers into the mix.

...

TSIA's new book, B4B (Business For Business), defines the new operating model for technology suppliers and their customers. In B4B, you'll discover what's required for long-term, sustainable growth and profitability in a pay-per-use world. In short, it is a fundamental rethinking of the tech supplier's role in driving customer outcomes. This requires new thinking, new organizational ...
