The Robert Bosch VE-type injection pump is used on a variety of vehicles and is made under licenses by other manufacturers (Diesel Kiki and Nippondenso). The Bosch VE pump is primarily found on compact and automotive diesel engines. The code designation on the side of the pump is read:

Robert Bosch VE-type Injection Pump - dieselduck

The manual pump is installed along with the feeder pump and is used to eliminate air bubbles in the diesel system, which is usually known as “diesel system bleeding”. The air may “enter” in the system, for example, when the fuel filters change is made, or when the diesel injection pump maintenance is made.
