## **Building Honda K Series Engine**

Based on Honda K-series architecture, 4 Piston begins with a production K24A1 block from an Acura TSX. The block, although a factory casting, undergoes major surgery to prepare it for nearly a five-time boost in power. The engine is treated to full machining and the installation of ductile iron cylinder liners from Ramey Racing.

## Performance Guide - Super ...

The Honda K series of engines is one of our favorites and one of the top production inline 4 engines ever produced in our opinion. Last year we built a turbo K24 Z7 for a giveaway by Motovicity. With the turbo project being put to bed we got another opportunity to build a K motor, this time in the form of a naturally aspirated K24 Z7.

## Building the Naturally Aspirated Honda K Engine! Part 1 ...

In a world of every increasing engine output, 1,000-plus horsepower is still big news; and from a 4 cylinder no less. Luke Wilson of 4 Piston Racing used the Wiseco pistons booth at the 2017 PRI show to showcase the shop's latest build offering: a 1,200hp-capable Honda K series that can be street driven.

## 4 Piston Racing's 1,000hp-Plus Honda K Series Build

44mm on a tubular manifold with a GT30r size. If anything less is used, massive boost creep can/will occur. On GT35r and larger turbos we suggest either (2) 44mm gates or one 60mm gate.

## **Honda K-Series Pre-Tuning Checklist - Evans Tuning**

The B- and K-series engines both have thoroughly over-engineered blocks that can live with gobs more horsepower than Honda ever intended. But, when compared side-by-side, the K-series is clearly the more innovative and perfected platform — and why wouldn't it be? It's ten years the junior and the natural evolution of the B-series motor.
