Climate Crisis, Psychoanalysis, and Radical Ethics draws on the latest scientific evidence to set out the likely effects of climate change on politics, economics and society more generally, including impacts on psychoanalysts.

Climate Crisis, Psychoanalysis, and Radical Ethics ...

The climate crisis brings with it a sense of inevitable change, of things unravelling, but how society responds to this change is far from certain. An expanded notion of climate action is required, one that focuses on environmental justice, racial, social and economic inequalities and - perhaps most radically - new forms of living with the Earth.
