Cognition and Sentence Production: A Cross-Linguistic Study By S. N. Sridhar. Springer Series in Language and Communication: No. 22. New York: Springer-Verlag, 1988. 118 pp. \$42.50. Spoken language epitomizes human creativity. Speaking requires formulating messages based on the ideas we want to express and the communicative goals we want to achieve.

Cognition and Sentence Production: A Cross-Linguistic Study
The phenomena of organic production furnish data for a special kind of judgment, which, however, involves or rests upon a quite general principle, that of the contingency of the particular element in nature and its subjectively necessary adaptation to our faculty of cognition.

Use cognition in a sentence | cognition sentence examples
Definition of Cognition. the mental courses by which one obtains knowledge through experiences and thoughts. Examples of Cognition in a sentence. In the car accident, Steve acquired a head injury that affected his cognition and prevented him from learning new things.

Cognition: In a Sentence - WORDS IN A SENTENCE
the importance of general cognitive control mechanisms for the syntactic processing of sentences. On the basis of a review of the neurocognitive and sentence-processing literatures, we defend the following three hypotheses: (1) LIFG is part of a network of frontal lobe subsystems that are generally responsible

Cognitive control and parsing: Reexamining the role of ...
The word order that is easiest to understand in a language generally coincides with the word order most frequently used in that language. In Kagchikel, however, there is a discrepancy between the two: the syntactically basic VOS incurs the least cognitive load, whereas SVO is most frequently employed. This suggests that processing load is primarily determined by grammatical processes, whereas word order selection is affected by additional conceptual factors.

Cognitive loads and time courses related to word order ...
What Is Cognition? Cognition is a term referring to the mental processes involved in gaining knowledge and comprehension. These cognitive processes include thinking, knowing, remembering, judging, and problem-solving. These are higher-level functions of the brain and encompass language, imagination, perception, and planning.

What Is Cognition? - Verywell Mind
Monitoring of speech production. According to the standard model of speech production (Levelt, 1999), monitoring takes place throughout all phases of speech production. Levelt assumes that for monitoring of syntactic arrangement we utilise the same 'parsing' mechanisms we employ to analyse the syntax of a heard sentence.
