PENNSYLVANIA CORE STANDARDS

The Common Core mathematics standards are organized into two sets: the Standards for Mathematical Content, designed to cross traditional course boundaries and cover all the conceptual mathematical understandings students need to develop from kindergarten through 12th grade, and the Standards for Mathematical Practice, which highlight the kinds of expertise that students must develop and use throughout this same grade span.

About the Common Core Mathematics Standards for Middle School

The Common Core is a set of nationally recognized academic standards in mathematics and English language arts/literacy. These learning goals outline what a student should know and be able to do at the end of each grade. The standards were created to ensure that all students graduate from high school with the skills and knowledge necessary to succeed in college, career, and life, regardless of where they live.

Middle School Academic Standards | dcps

They represent the broad skills and expertise that teachers should strive to develop in their students. The content standards contain several key concepts called "domains.". The middle school domains include: the Number System, Expressions and Equations, Geometry and Statistics and Probability.
