Eggs are the main way to obtain pets. Like pets, eggs are classified into different rarities. The only known rarity an egg has never been is Event. Eggs function similarly to babies and pets, with each of them requiring a certain amount of tasks done in order to reach their hatching stage. Players can also skip the process of completing tasks in order to hatch a pet by buying the 'Hatch Now ...

Electroencephalography (EEG) is an electrophysiological monitoring method to record electrical activity of the brain.It is typically noninvasive, with the electrodes placed along the scalp, although invasive electrodes are sometimes used, as in electrocorticography, sometimes called intracranial EEG.. EEG measures voltage fluctuations resulting from ionic current within the neurons of the brain.
