A farmer field school is a group-based learning process that has been used by a number of governments, NGOs, and international agencies to promote integrated pest management. The first FFSs were designed and managed by the UN Food and Agriculture Organization in Indonesia in 1989. Since then, more than two million farmers across Asia have participated in this type of learning. A farmer field school brings together concepts and methods from agroecology, experiential education and community develo

### Farmer field school - Wikipedia

The Farmers' Field and Business Schools are a product of the CARE Pathways program and focus on a learning-by-doing approach, putting farmers at the heart of learning and decision-making around new agricultural techniques. So far, working with FFBS has led to 65% to 75% adoption of improved agricultural techniques among the 50,000 women who are part of the Pathways program.

### Farmers' Field and Business Schools (FFBS) - CARE

Farmer Field Schools (FFS) and Farmer-to-Farmer methods have been instrumental in building local capacity to develop sustainable food systems in many parts of the world. Farmers, accompanied by a facilitator, establish a peer-learning network based on innovation, solidarity and empowerment. Basic agroecological knowledge and methods are shared between farmer-experimenters and technical experts are brought in as needed.

### East Bay Urban Farmer Field Schools : Food First

Farm to school is a national movement that helps connect kids to healthy, local food while also supporting local farmers and building communities. Farm to school initiatives can happen in the classroom through nutrition lessons and field trips to farms, in the school garden, or in the cafeteria by serving locally grown food for breakfast or lunch.

### Farm to School - Action for Healthy Kids

A Farmer Field School (FFS) is a season-long training activity that takes place in the field. It is season-long so that it covers all the different developmental stages of the crop and their related management practices. The training process is always learner-centered, participatory and relying on an experiential learning approach.
