First aid is the first and immediate assistance given to any person suffering from either a minor or serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery. It includes initial intervention in a serious condition prior to professional medical help being available, such as performing cardiopulmonary resuscitation (CPR) while ...

### **First aid - Wikipedia**

Remember that industries with a high incidence of injury must have medical care to the employee within four to six minutes. Since emergency medical services use an eight-minute response time standard for metropolitan areas, employers in high-injury industries need to provide first aid training to employees. Rural ambulance response times are significantly longer.

### **OSHA Compliance Requirements for Workplace First Aid**

Find the top of the face covering (There should be a small wire in sewn into the seam). Hold face covering by ear loops or ties. Place face covering over face and pull each loop back around the ears (for a one with ties, hold by the ties and secure the top ties behind the head just above your ears with a bow).
