The sixteen Myers-Briggs types are based on Jung's theory. However, four of their sixteen types are almost identical to the four basic personality types from the four temperaments model. The remaining twelve could as well describe all variations of mixed temperaments (more details on this below).

Uses of forests

Mistress Hibbins is a widow who lives with her brother, Governor Bellingham, in a luxurious mansion. She is commonly known to be a witch who ventures into the forest at night to ride with the "Black Man." Her appearances at public occasions remind the reader of the hypocrisy and hidden evil in Puritan society.

The Scarlet Letter: Character List | SparkNotes

The four temperament theory is a proto-psychological theory which suggests that there are four fundamental personality types: sanguine, choleric, melancholic, and phlegmatic. Most formulations include the possibility of mixtures among the types where an individual's personality types overlap and they share two or more temperaments.

Four temperaments - Wikipedia

The person you were walking with is the most important person in your life. The size of the animal you come across is a representation of the size of your problems. If your action was more severe, it means you tend to be more aggressive. If it was peaceful, then more passive. The size of your home is representative of the size of your ambition.

Puck: Also known as Robin Goodfellow, Puck is Oberon's jester, a mischievous fairy who delights in playing pranks on mortals. Though A Midsummer Night's Dream divides its action between several groups of characters, Puck is the closest thing the play has to a protagonist. His enchanting, mischievous spirit pervades the atmosphere, and his antics are responsible for many of the ...
