Type T Links | Fuse Links - Hubbell Power Systems

The fuse element of Chance Type MS fuse links is composed of two copper or copper-alloy wires joined by a solder junction. During heavy overloads or low fault currents, the heat generated by the two wires melts the solder, causing fuse operation. Operation under medium or heavy fault current occurs as one of the two wires melt.

Fuse Links - Castle Power Solutions, LLC

for the user's purpose, the specifics should be referred to Hubbell Power Systems, Inc. FUSE LINKS These fuse links will not protect personnel from electrocution. Hot gases and high velocity particles are expelled during interruption. This expulsion can cause serious injury. Do not get in line with fuseholder. Stay away from conical space

Originally a manufacturer of anchors, CHANCE purchased Tip Tools Co. in 1937, which would later become CHANCE® Lineman Grade Tools™. Over the course of nearly 120 years, CHANCE has delivered pole line hardware, switches, cutouts and fuse links in addition to anchors, foundations, hot line tools, fiberglass and rubber products. Acquired by Hubbell® in 1994, the CHANCE brand is proudly manufactured in Centralia, Missouri, Leeds, Alabama and Juarez, Mexico.
