Pogil Activities For Ap Biology Answer Key - Joomlaxe.com. EK 3.B.1 Gene regulation results in differential gene expression, leading to cell specialization. EK 3.B.2 A variety of intercellular and intracellular signal transmissions mediate gene expression.

Pogil Activities For Ap Biology Answer Key Genetic Mutations

The genes encoded in your DNA result in the production of proteins that perform specific functions within your cells. Various environmental factors and spontaneous events can lead to changes in genes. These changes, called mutations, can lead to alterations in the structure and activity of the proteins your cells use in their daily activities. In other words, changes to your genotype can result in changes to your phenotype.
