How to Get Started as an Electronics Hobbyist ...

It's not that hard to get started in electronics as a hobby, you know. For some reason, some people like to tell beginners that it's hard. They tell you that "You have to go to university to make electronics". And you see those crazy schematics with lots of strange components, so you start believing that it really is hard.

Getting Started In Electronics - Build Electronic Circuits

To begin, it is advisable to get a basic electronics kit which includes resistors, capacitors, diodes, and LEDs (amongst other things). There are no hobby kits which are perfect. They will always be missing that one last thing you need. However, the one I linked to includes a little bit of everything, and is a good place to start.
