**Duke University Press - Global/Local**

Globalization facilitates an increasing concentration of power, knowledge, information, capital etc. (embodied by various transnational political organizations and corporations), but it also generates a powerful decentralizing dynamic as local entities, communities and groups attempt to obtain more power over the forces that influence their situation and further development.

**Cultural Globalization and Transnational Flows of Things ...**

Individuals, groups, institutions and states interact with each other in a new global space where cultural and political characteristic of national societies are combined with emerging multilevel and multinational activities. Transnationalism is a part of the process of capitalist globalization.
