This volume reports on the excavation of Guilá Naquitz cave in Oaxaca, a site that provides important evidence for the earliest plant domestication in the New World. Stratigraphic studies,...

Guilá Naquitz: Archaic Foraging and Early Agriculture in

...

Guilá Naquitz is a small cave occupied by local hunter-gatherers at least six times between 8000 and 6500 BCE, by hunters and gatherers, probably during the fall (October to December) of the year. The cave is in the Tehuacán valley of the state of Oaxaca, Mexico, about 3 miles (5 kilometers) northwest of the town of Mitla.

Kent V. Flannery - Wikipedia

Spencer and Flannery begin with an introduction to data organization and computer programming for mapping artifact distributions, utilizing data from stratigraphic zone D, which is immediately prior to the time frame of this file (Early Mesoamerican Archaic NY30). They then provide results for each living floor (stratigraphic zone), mapping and discussing the concentrations of flint debitage...
