**Harm Reduction International - Wikipedia**

International contributors discuss the philosophical basis and history of harm reduction policies and examine their outcomes. With particular emphasis on the conflicts between public health systems, where most programmes are located, and a world-wide criminal justice system that further marginalizes drug users.

**Harm reduction : national and international perspectives ...**

Harm reduction stands in stark contrast to a punitive approach to problematic drug use—it is based on acknowledging the dignity and humanity of people who use drugs and bringing them into a community of care in order to minimize negative consequences and promote optimal health and social inclusion.

**Harm Reduction | Drug Policy Alliance**

Harm reduction is a set of policies and practices intended to reduce the negative effects of drug and alcohol use. Harm reduction programs exist for several types of drugs, including opioids, alcohol, stimulants, Ecstasy, and marijuana. They range from needle exchange sites to managed alcohol programs to drug-testing kits at music festivals.
