Plan Design Guide - Edrawsoft

Plumbing Basics. Your home's supply and drainage system must always be two distinct subsystems, with no overlapping. At the fixtures (bridges between the two systems), the air admitted by the vent stack and vent pipes keeps the traps sealed and prevents sewer gases from backing up through the drains.

Plumbing - This Old House

Most homes utilize the same basic principles for plumbing and drain systems: A main water line usually comes in around the home's foundation; from this point, it runs over to a water heater. The water heater generates hot water for the entire house.

Vents | DIY

Three design options for PEX plumbing systems are: trunk-and-branch systems, home-run manifold systems, and sunbmanifold systems. Trunk-and-branch systems are easy, but waste a lot of water Traditional systems consist of large-diameter (usually 3/4 in.) trunk lines to distribute water throughout a house.

Plumbing Systems

If you're having a home built, that's not a necessary evil -- talk to your builder about the plumbing system design to see what options you have. For example, a re-circulation pump or point source instantaneous unit might be options. While perhaps the least exciting system in the home, plumbing is an important part of a
