We utilize Honda GC- and GX-series engines on Ventry ® Ventilation Fans, our patented portable gas and electric fans which are used primarily in fire fighting and brush burning/stump burning. The main difference in the engines we use (GC160, GX120, GX160 and GX200) is that the GX engines are commercial duty while the GC160 is considered residential duty.

Fixing a honda gc190 carburetor - YouTube

Honda's GC and GS engines use the world's first small engine internal timing belt, designed to last the lifetime of the engine. Small engine timing belts are usually external and are subject to wear caused by dirt. Honda's internal timing belt runs in oil, eliminating the need for conventional drive gears. This design:
