The best things come in small packages. And that's especially true with Honda's BF2.3, one of the world's lightest four-stroke outboards. The BF2.3 is so light, it rivals many two-stroke 2HP engines and electric motors, without the battery! But just because it's lightweight doesn't mean we cut back on the power.

Ten Thousand Miles on the Final Aircooled Honda

These small compact engines are air cooled, meaning the moment of air around the engine cools it down. This means they operate at higher temperatures than car engines. Also, because lawn mowers don't move as fast as cars, the air movement, doesn't cool as much. These factors can quickly destroy an engine.

What is the best oil you can buy for your lawn mower engine?

The Honda GD410 is a (411 cc, 25.2 cu-in) single-cylinder air-cooled 4-stroke internal combustion diesel engine with horizontal shaft, manufactured by Honda Motor Company for general-purpose applications since 1988. This engine has a single cylinder and overhead valves. The GD410 engine has a recoil starter or starter motor.
