Kindle books can only be loaned once, so if you see a title you want, get it before it's gone.

Lecture Notes Ophthalmology

Welcome to the 11th edition of Ophthalmology Lecture Notes! As in the past, our aim has been to make the diagnosis and management of eye disease a palatable process and once again we stress the value of a good history and careful clinical examination of the eye. The eye is remarkably accessible. Optical and digital techniques give access

Ophthalmology Lecture Notes (PDF 92P)
This lecture note will serve as a practical guideline for the hard-pressed mid-level health workers. We hope that it will be a good introduction to eye diseases for health science students working in Ethiopia. This note covers the following topics: basic anatomy and physiology of the eye, basic examination of the eye, external eye diseases, differential diagnosis of red eye, community ophthalmology, eye injuries and systemic disease and the eye.
