## **Linux Crash Course for Beginners - 2020 | Udemy**

Linux® is an open source operating system (OS).It was originally conceived of and created as a hobby by Linus Torvalds in 1991.Linus, while at university, sought to create an alternative, free, open source version of the MINIX operating system, which was itself based on the principles and design of Unix. That hobby has since become the OS with the largest user base, the most-used OS on ...
