[PDF] Locus of control: Current trends in theory and ...

Locus of control is the degree to which people believe that they, as opposed to external forces (beyond their influence), have control over the outcome of events in their lives. The concept was developed by Julian B. Rotter in 1954, and has since become an aspect of personality psychology. A person's "locus" (plural "loci", Latin for "place" or "location") is conceptualized as internal (a ...

Locus of control - Wikipedia

High external locus of control: In this scenario, individuals believe that outcomes are out of their control and it completely depends on external factors such as fate, change etc. Individuals who have a high tendency towards risks are more likely to become an entrepreneur (Bodill & Roberts, 2013).
