Lying and deception in human interaction (Book, 2008 ...

The notion that lying to protect oneself from punishment may be adaptive is consistent with the work of anthropologists such as Richard Byrne, who in 2004 found a positive relation between neocortex size and deception in primates. At the same time, the association of lying with prosocial behavior has been amply demonstrated.

The Origins of Lying and Deception in Everyday Life ...

While lying to oneself is generally perceived as harmful, some experts argue that certain kinds of self-deception—like believing one can accomplish a difficult goal even if evidence exists to the...

Deception | Psychology Today

Lying and deception are common human behaviors. Until relatively recently, there has been little actual research into just how often people lie. A 2004 Reader's Digest poll found that as many as 96% of people admit to lying at least sometimes.

How to Recognize the Signs That Someone Is Lying

But as psychologists delve deeper into the details of deception, they're finding that lying is a surprisingly common and complex phenomenon. For starters, the work by Bella DePaulo, Ph.D., a...

The Truth About Lying | Psychology Today

Lying is among the most sophisticated and demanding accomplishments of the human brain. Children have to learn how to lie; people with certain types of frontal lobe injuries may not be able to do it.

The Art of Lying - Scientific American

Lying, it turns out, is something that most of us are very adept at. We lie with ease, in ways big and small, to strangers, co-workers, friends, and loved ones. Our capacity for dishonesty is as...

Why We Lie: The Science Behind Our Deceptive Ways

While we often like to think of lying as some sort of aberration from normal human behavior, the truth may be much less pleasant. An increasing number of studies are illustrating that lies and deception are not only ubiquitous in our everyday behavior but also serve a fundamental role in human development.

Deception as Human Nature, Part I - Humintell

Lying; Why People Lie; Human Nature; Human Nature. To better understand why we lie to those we love, it helps to take a close look at our human nature. What does science tell us about our romantic relationships and how they work? Over the past several decades thousands of researchers have been exploring this topic.

Human Nature - Truth About Deception

Questions central to the philosophical discussion of lying to others and other-deception (interpersonal deceiving) may be divided into two kinds. Questions of the first kind are definitional or conceptual. They include the questions of how lying is to be defined, how deceiving is to be defined, and whether lying is always a form of deceiving.
