In Marginal Gains, Jane I. Guyer explores and explains these often bewildering practices, including trade with coastal capitalism and across indigenous currency zones, and within the modern popular economy. Drawing on a wide range of evidence, Guyer demonstrates that the region shares a coherent, if loosely knit, commercial culture.

Inspired by Jane Guyer's insights in Marginal Gains (2004) into the distinctive logics and
performative repertoires that animate economic life in Africa, this article offers a few reflections on
the implications of African economic dynamics for conceptual debates about economic and social
meanings of value. In particular, it is suggested that market values may be understood not simply

In economics, economic value is a measure of the benefit provided by a good or service to an economic agent. It is generally measured relative to units of currency, and the interpretation is therefore "what is the maximum amount of money a specific actor is willing and able to pay for the good or service"?. Among the competing schools of economic theory there are differing theories of value.
