Mercury Capsule Manual - old.dawnclinic.org

The Estes Mercury Capsule was released in the 1963 catalog and was sold for many years. It was not a true scale of the Mercury Capsule, but was a fun addition to an “experienced” rocket to have a nose cone and payload section that was a little different. The Mercury Capsule was introduced as Catalog #PSM-1 for \$1.00. The Semroc Retro-Repro ...

Mercury Capsule on display at the National Museum of the United States Air Force. Although this spacecraft is flight-rated, it was not flown. (Photos: Richard Kruse, 2007) Mercury-Redstone. The first successful Mercury-Redstone rocket flew on 19DEC1960. The rocket was used to launch Mercury capsules on suborbital trajectories into space.

Mercury Space Capsules | Historic Spacecraft

Spacecraft. The Mercury spacecraft's principal designer was Maxime Faget, who started research for human spaceflight during the time of the NACA. It was 10.8 feet (3.3 m) long and 6.0 feet (1.8 m) wide; with the launch escape system added, the overall length was 25.9 feet (7.9 m). With 100 cubic feet (2.8 m 3) of habitable volume, the capsule was just large enough for a single crew member.

mercury capsule model kit for sale | eBay

The capsule is modelled after the Mercury Familiarization Manual SEDR 104 (5/20/1962) used by MA-7 (Carpenter) and MA-8 (Schirra) and contains most of the simple and advanced controls from all the different Mercury Capsule configurations, including the satellite clock, the Earth Path Indicator, the electrical system using 3 main fuel cells, two standby and one isolated and so on.

Mercury | Reentry - An Orbital Simulator

This 1:48 scale model was released by Revell in 1964 as part of a two-model set that also featured a 1/48 scale Gemini spacecraft. Released after the Mercury program had been completed and just prior to the launch of the first Gemini mission, this kit was the only injection-molded model of the historic Mercury capsule produced until Atomic City released its larger 1/12-scale kit in 2004.
