Physician ICD-9-CM : International classification of ...

The International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) is based on the World Health Organization's Ninth Revision, International Classification of Diseases (ICD-9). ICD-9-CM is the official system of assigning codes to diagnoses and procedures associated with hospital utilization in the United States. The ICD-9 was used to code and classify mortality data from death certificates until 1999, when use of ICD-10 for mortality coding started. The ICD-9 ...

Objective. We examined the association between serum uric acid (SUA) level and the frequency, risk, and cost of gout flares among the elderly. Methods. Data were extracted from the Integrated Healthcare Information Services claims database (1999–2005). Patients were included if they had gout, were aged 65 years and older and had both medical and pharmacy benefits, and electronic laboratory data.
