Most users recommend laying on your side and lifting your upper leg as this position makes it easy to insert your oral syringe deeply and with less resistance than some alternatives. Insert your oral syringe to a depth of around the distance from your 2nd or 3rd knuckle to the tip of your index or middle finger.

Follow these steps to plug a hole in your tire. I live in a new housing development which leaves me prone to picking up nails and screws often. This would get mighty expensive if it weren't for the ability to patch them myself. Please keep in mind this is a how to guide, not a certified repair process.
