Political Landscapes Forests Conservation And

" Political Landscapes is an excellently researched and meticulously documented environmental and political history of modern Mexico. Christopher R. Boyer's focus on the forests shows us a new way of writing Mexico's history from the Revolution forward. A masterful narrative, this will become a very important and influential book."

Political Landscapes: Forests, Conservation, and Community ...

Christopher R. Boyer examines this history in Political Landscapes, where he argues that the forests in Chihuahua and Michoacán became what he calls "political landscapes"--that is, geographies that become politicized by the interactions between opposing actors--through the effects of backroom deals, nepotism, and political negotiations.

Forests, Conservation, and Community in Mexico. Following the 1917 Mexican Revolution inhabitants of the states of Chihuahua and Michoacán received vast tracts of prime timberland as part of Mexico's land redistribution program. Although locals gained possession of the forests, the federal government retained management rights, which created conflict over subsequent decades among rural, often indigenous villages; government; and private timber companies about how best to manage the forests.

Duke University Press - Political Landscapes

Some scholars attributed this decline to the collapse of state forestry, but this book suggests that another important factor was the depoliticization of forest landscapes that began around 2000 as foresters, loggers, and rural people began to reject the state's authority in the woodlands.
