### INCREASING BOOST LEVEL Adjusting the Power to the Trailer ...

Prodigy® is the most intelligent brake control. This powerful control features new motion sensor technology similar to what is used in the aerospace industry. With Prodigy® no manual level adjustment is necessary, it adjusts itself to varying terrains as you drive. It is equipped with a sensor that detects the tow vehicle's rate of deceleration, applies proportional braking to the trailer and features an exclusive "BoostSM" feature that gives users the ability to apply more initial trailer ...

### Tekonsha - Prodigy®

The Prodigy P2 electric brake controller supplies power to your tow vehicle's brakes proportionally. This means that your trailer brakes at the same time and with the same strength as your vehicle - even in reverse gear. If you have to slam on your truck's brakes, the trailer's brakes respond instantly, too - there's no delay.
