Radford Electronics remain well regarded for their valve power amplifiers. This is because the amplifiers gained a well-justified reputation for outstanding performance. This webpage provides examples of the circuit diagrams of their STA (STereo Amplifier) and MA (Mono Amplifier) power amps, and outlines the development in the designs.

A brand I know strictly nothing about except it was mainly known for its valve / tube amplifiers in the 1960s... but not its 1970s solid-state designs. I just happened to have extra-rare leaflets for the HD250 and two other solid-state components which I sent to Paul Kemble - better visit his website for a serious study of the HD250 .
