Russian architecture follows a tradition whose roots lie in early Russian wooden architecture and in the architecture of Kievan Rus' with its centers in Veliky Novgorod and Kiev. From the Rus' era the Byzantine Empire influenced the architecture and culture of Russia. In other phases of Russian history the architecture developed independently and was characterized by national and local features. After the fall of Kiev, Russian architectural history continued in the principalities of Vladimir-Suz

Russia by Richard Anderson from Reaktion Books

For some years in 19th century, brick architecture almost became synonymous with Russian style architecture. Many remarkable examples of Russian style architecture are built from bricks: the State Historical Museum in Moscow (1875-1883), and Igumnov's House in Moscow (1888-1895) being among them.

8 Interesting Features Unique to Russian Architecture

The first is Richard Anderson's *Russia: Modern Architectures in History*, which presents a panoramic history of pre-Soviet, Soviet, and post-Soviet architecture from the late nineteenth century to the present. It starts with Victorian eclecticism, "style modern," and Constructivism, then turns to the eclectic, anti-modernist Socialist Realism of the Stalin era and the standardized and plural modernisms of the 1960s through the 1980s, and ends with a very mixed picture of contemporary ...

Designing the Soviet Union

Modern Russian architecture (1970 - to present) Architecture flourished in modern Russia where restrictions on design such as height and decoration were lifted. This, combined with the improved financial health of Russia meant that the first skyscrapers were constructed and the Moscow International Business Centre was erected.

Moscow has emerged as a modern city of the 21st century. Rebuilding this Cathedral has been one of the projects that have transformed the city. The Cathedral project leaders included the Mayor of Moscow, Yuri Luzhkov, and the architect M.M. Posokhin, just as they were involved with skyscraper projects such as Mercury City.

Architecture in Russia, a Photo-Historic Journey

Given the country's rich architectural history spanning almost the entirety of the 20th century, you'd be forgiven for thinking that the fall of Russian Communism in the early 1990s might have ...

6 of Russia's Best 21st Century Projects | ArchDaily

After the Russian Revolution of 1917, Russian avant-garde artists and architects began searching for a new Soviet style which could replace traditional neoclassicism. The new architectural movements were closely tied with the literary and artistic movements of the period, the futurism of poet Vladimir Mayakovsky, the Suprematism of painter Kasimir Malevich, and the colorful Rayonism of painter Mikhail Larionov.

Modern architecture - Wikipedia

With the founding and buildup of St. Petersburg, beginning in the early eighteenth century, the old Muscovite building trade became the new "science" of arkhitektura, studied in special new schools where pupils were taught foreign languages, mathematics, and classical architecture.
