Author Sarah Raven demonstrates how a garden of any size can have an area devoted to growing flowers for cutting. Using planting plans and color photographs, she explains how to plan, plant, and maintain a well-stocked cutting garden that will provide material for beautiful and original arrangements.

## **Raven, Sarah [WorldCat Identities]**

Cut back lightly; severe pruning is always a gamble. It is safer to take two or three springs to downsize a badly overgrown plant." Another resource, with a description of the grab-and-snip pruning technique for mounding shrubs may be found in Cass Turnbull's *The Complete Guide to Landscape Design, Renovation and Maintenance* (2006).
