How to do a self-assessment of your skills | Guardian Jobs

A self-assessment is not a test. It does not have the desired outcome, for example, right or wrong answers that would demonstrate the mastery of a subject. It is a way to learn about yourself by gathering data that includes information about your work-related values, interests, personality type, and aptitudes.

oneself in order to assess aspects that are important to one's identity. It is one of the motives that drive self-evaluation, along with self-verification and self-enhancement. Sedikides suggests that the self-assessment motive will prompt people to seek information to confirm their uncertain self-concept rather than their certain self-concept and at the same time people use self-assessment to enhance their certainty of their own

Self-assessment - Wikipedia

The Medical Knowledge Self-Assessment Program® (MKSAP) has been the “go-to” resource for board prep and lifelong learning since 1967. The Best is Always Better! As a comprehensive learning management system, MKSAP 18 remains the standard in excellence for equipping residents and practicing physicians with the information they need to stay current in medicine and prepare for their board exams.
