Silencer at Brownells

Silencers for firearms were made in 1902 by Hiram Percy Maxim in lock-step with another one of his inventions, the car muffler. This makes sense because both products utilized nearly identical technology. Today car mufflers are mandated by the government, while firearm suppressors are highly regulated by it. That doesn't make any sense at all.

NRA Family | How to Buy a Suppressor

A silencer screws on to the end of the barrel and has a huge volume compared to the barrel (20 or 30 times greater). With the silencer in place, the pressurized gas behind the bullet has a big space to expand into. So the pressure of the hot gas falls significantly.
