Tank Force: Allied Armor in World War II (Ballantine's ...
The Tank, Infantry, Mk.IV was one of the heaviest, but also most dependable Allied tanks during the war. Its sturdy chassis and well-protected hull served for many conversions and utility versions: bridge layer, minelayer/minesweeper, AVRE (Royal engineer corp), Petard (mortar), Oke and Crocodile (flamethrower) , ARV (recovery), ARK (ramp).

WW2 British tanks and armored cars
The tank-destroyer force was the Army's response to the wild successes of German armor in Poland and France in 1939 and 1940. Panzer divisions would concentrate more than a hundred tanks on a...

How America's Tank Destroyers Ruined Hitler's Army | The ...
It was the largest tank mass-produced by German forces during the war, and remains among the heaviest mass-produced tanks ever. Its 8.8 cm KwK 43 could virtually knock out every Allied tank, while its sloped armor was thick enough to defeat most Allied guns (excluding hollow charge weapons). However, the Tiger II suffered from multiple mechanical problems due to its rushed development and excessive weight.

German tanks in World War II - Wikipedia
As units of the Japanese Army began to encounter advanced Allied medium tanks, such as the M4 Sherman, it was seen that the Japanese Type 97 Chi-Ha main battle tank lacked sufficient armor or armament to deal with this threat, and work was begun on a tank destroyer version.

Tanks in the Japanese Army - Wikipedia

BALLANTINE'S ILLUSTRATED HISTORY, WEAPONS BOOK #15, "TANK ...
Realizing their tank force was largely inadequate in dealing with Allied armor across the Pacific Campaign, the Imperial Japanese Army (IJA) enacted a new program to produce an increasingly capable design to counter the 30-ton American M4 Sherman appearing in ever greater numbers.

Type 3 Chi-Nu Medium Tank
The German tank force was an amazing success due to tactical innovation more than tank quality. Many of their tanks outclassed allied armor, delivered more casualties than they took in most engagements due to the impressive training the German soldiers received, and the excellent tactics used by the German forces.

Germany - World War Tanks
The Allied core forces still remained fast, efficient, but fairly lightly armed and armored, such as the Grizzly Tank. They continued to deploy numerous inventive and high-tech weapons, such as the Mirage Tank and Prism Technology.
