The Book of Nature is a religious and philosophical concept originating in the Latin Middle Ages which views nature as a book to be read for knowledge and understanding. There also was a book written by Conrad of Megenberg in the 14th century with the original German title of "Buch der Natur". Early theologians believed the Book of Nature was a source of God's revelation to mankind; when read alongside sacred scripture, the "book" of nature and the study of God's creations would lead to a knowle
