Debt-Deflation Theory of Great Depressions

Debt deflation is a theory based on the principle of the correlation between the debt burden and the price level in a country. Deflation has the effect of significantly reducing

Read Online The Debt Deflation

the debt burden.

Conversely, a price increase leads to an increase in the debt burden. This is the theory put forward by its creator Irving Fisher in 1933.

What is debt deflation?

The theory of debt deflation is a macroeconomics concept pertaining to rising debt levels and their negative impact
