the autonomy of FIFA and UEFA by building upon insights from the principal-agent model. The author argues that EU institutional features complicate control, but do not render the EU powerless, and that FIFA and UEFA can deploy a variety of strategies to mitigate control.

The EU in International Sports Governance - A Principal ...

The European Union plays a minor and mostly indirect policy role in sport, because (a) sport is normally considered to be outside the competences conferred by the member states to the European Union and (b) sport is in general organised internally, on a European continental level (which is not the same as the level of the European Union), or globally.

Sport policies of the European Union - Wikipedia

This article presents some characteristics of the European Union's (EU) international trade in sporting goods. It considers the EU's share in world import and export markets, intra-EU and extra-EU trade, the EU's most widely traded sporting goods categories and the EU's main trading partners.
